

UIC Timeline

Description

We want to create an app that can inform the public about UIC's **diverse community**. We are specifically focusing on the demographics of UIC in terms of race to show its diversity. The timeline will show important events through UIC's **history** but also include other relevant events that might have made an impact to the school's diversity. It will also include all major events that lead **President Barack Obama** into office.

Objectives

- 1 Inform the public about UIC's diversity
- 2 Inform the public about the history relationship between UIC and Obama
- 3 Emphasize how much UIC has grown through the Chicagoland area
- 4 Make the app interface as user friendly as possible

KHOROUS JANGI ART SOCIETY

Painter Jalil Ziapour, graduate of Tehran University's Faculty of Fine Arts, founds the Khorous Jangi (Fighting Cock) Art Society along with writer Gholam Hussein Ghanib, poet Manuchehr Sheibani, and playwright Hasan Shirvani. Ziapour's atelier becomes a popular meeting spot of Tehran's avant-garde, and the society begins publishing the modernist art and literature Khorous Jangi. Ziapour designs the magazine's cubist-inspired master logo.
